

# COMMON SENSE LENDING IT'S IN EVERYTHING WE DO

## Employed - Agency Nurse

For intermediary use only

### Background

- Our applicant was a nurse who has worked in nursing for 20 years
- The applicant decided they needed a more flexible work life balance and changed to working via an agency instead
- Earning £300 p/w and they have worked at the same hospital in the same role for many years
- The hours worked and income achieved whilst employed were very similar level to what they receive with the agency

### What did we do?

- The applicant had a long track record in nursing and there is a demand for work for nurses
- We were happy to look at using their income at 100% despite employed via an agency and not having any guaranteed contracted hours
